

DHRUV RANA

Surat, Gujarat, India | +91-9870098180 | dhruvrana1935@gmail.com | [linkedin.com/in/dhruvrana26602](https://www.linkedin.com/in/dhruvrana26602)

PROFESSIONAL SUMMARY

MCA student with hands-on full-stack development experience in Python, Java, PHP, and MySQL, and a track record of building production-grade web applications and blockchain systems. Skilled WordPress developer experienced with Elementor, WooCommerce, and on-page SEO. Passionate about scalable architectures, data-driven problem solving, and clean code. Seeking a software engineering internship to contribute to large-scale systems.

EXPERIENCE

WordPress Developer

Badiya Brand

November 2025 – Present (8 Months)

Surat, Gujarat, India (On-site)

- Developed and maintained responsive WordPress websites, optimizing themes and plugins to improve page-load performance and Core Web Vitals scores.
- Built and customized pages using Elementor page builder, including custom widgets, dynamic templates, and reusable global sections to speed up development cycles.
- Configured and managed WooCommerce storefronts, including product catalogs, payment gateway integration, and order workflows.
- Implemented on-page SEO best practices (structured data/schema markup, XML sitemap optimization, meta tags) using tools such as Yoast SEO / Rank Math, improving organic search visibility.
- Used caching and optimization plugins (e.g., WP Rocket, Smush) alongside custom CSS/JavaScript to reduce load times and improve site performance.
- Managed website hosting, backups, security hardening, and version control (Git) for client sites.
- Collaborated with stakeholders and designers to translate requirements into functional, on-brand web pages, shipping features on schedule.

Web Developer Intern

Prodigy InfoTech

August 2024 – September 2024

India (Remote)

- Built dynamic web pages using HTML5, CSS3, Bootstrap 5, and JavaScript; integrated RESTful APIs and debugged PHP back-end modules.
- Participated in agile sprint cycles and code reviews, reducing reported UI bugs through improved input validation and modular code structure.

PROJECTS

VoteChain – Blockchain E-Voting System | Python, Django, Bootstrap 5, Blockchain

- Designed and implemented a tamper-proof digital voting platform leveraging blockchain principles to ensure immutability and auditability of votes.
- Built a RESTful Django back-end with role-based access control for voters, candidates, and administrators; reduced fraudulent vote attempts to zero in simulated load tests.
- Delivered a responsive Bootstrap 5 front-end with real-time vote tally dashboards, improving transparency and voter trust.

Car Rental Platform | PHP, MySQL, HTML5, CSS3

- Engineered a full-stack car booking system featuring real-time availability search, user authentication, and booking management for 50+ vehicle listings.
- Optimized MySQL queries with indexing strategies, reducing average query response time by approximately 40%.
- Implemented secure session management and input sanitization to prevent SQL injection and XSS vulnerabilities.

TECHNICAL SKILLS

Languages: Python, Java, C/C++, PHP, SQL, JavaScript, HTML5, CSS3

Frameworks & Libraries: Django, Bootstrap 5, WordPress

WordPress Tools: Elementor, WooCommerce, Yoast SEO, Rank Math, WP Rocket, Smush, Divi, Contact Form 7, WPForms

Databases: MySQL, basic SQL query optimization & indexing

Tools & Platforms: Git, VS Code, Linux CLI, REST APIs, cPanel

Concepts: Data Structures & Algorithms, OOP, MVC Architecture, Blockchain fundamentals, Machine Learning (supervised learning), SEO, Agile/Scrum

EDUCATION

Master of Computer Applications (MCA)

LJ University

July 2024 – April 2026

Ahmedabad, Gujarat, India

Bachelor of Computer Applications (BCA), Computer Science

M.K. Institute of Computer Studies, VNSGU

June 2021 – April 2024

Bharuch, Gujarat, India

CERTIFICATIONS & ACHIEVEMENTS

- SAP Technology Consultant – SAP (2025)
- Python for Data Science, AI & Development – IBM / Coursera (2025)
- ChatGPT & Excel for Data Insights (2025)
- UX Design Fundamentals & UI/UX Design – Professional Certification
- National Pixel Puzzle Coding Competition – Winner (competitive programming recognition)
